

About Our Partnership:

An HCA Affiliated Hospital

"Knuckling Up for Aneurysm Research"

Kingwood Medical Center and The Joe Niekro Foundation

have partnered to promote brain aneurysm awareness and provide patient support

through fundraising initiatives such as **The Joe Niekro Foundation Golf-A-Thon**, presented by Kingwood Medical Center. The Golf-A-Thon isn't your typical scramble; it is an 18 or 36-hole tournament where golfers play for pledges they raised based on each hole they complete. It gives novice golfers reason to tee-up and compete for pledges on the links; players can even pay tribute to Joe Niekro - jersey #36 - by signing up for 36-holes.

The Golf-A-Thon will help fund support groups for aneurysm and stroke patients and their families,

while building awareness in northeast Houston and promoting the importance of early detection. A local support group for stroke and brain aneurysm patients and their loved ones has already been established at Kingwood Medical Center and we hope to develop several more groups in the greater Houston area through your support.

For questions about the foundation or to participate in the Golf-A-Thon, contact Natalie Niekro at nniekro@joeniekrofoundation.org or visit joeniekrofoundation.org.

For information about the Kingwood stroke and aneurysm support group, contact Dianne.Price@hcahealthcare.com or visit KingwoodMedical.com.
